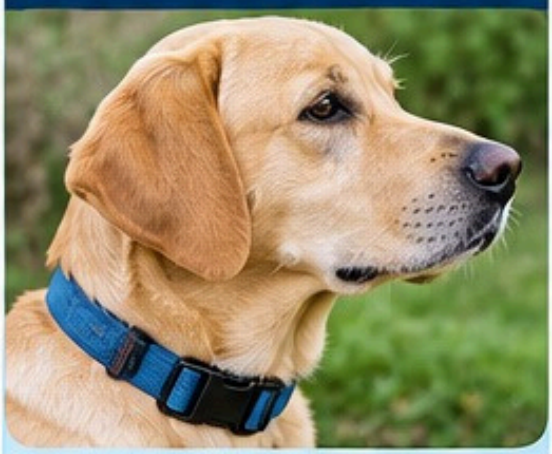
Collars & Leashes

Safe, comfortable and effective.

Flat Buckle Collar



- Ideal for everyday use.
- Simple, comfortable and secure.

Martingale Collar

A properly fitted martingale:

- Designed to tighten just enough to prevent slipping over a narrow head (e.g. sighthound).
- Does not tighten to put pressure on the windpipe.

Our Collar Policy

We do NOT accept:

- ✗ Choke chains
- ✗ Prong collars
- ✗ Slip leads

Why Not Retractable or Bungee Leashes?

Retractable Leashes

- Often get tangled around people and dogs.
- Encourage pulling – dogs learn they get more freedom when pressure is applied.

Fixed Length Leash

- Approximately 5–6 feet (1.5–1.8 m).
- Gives the right balance of control and freedom.

Bungee Leashes

- Stretch when the dog pulls harder, which encourages more pulling.
- Can reduce your ability to manage your dog.

A fixed length leash and the right equipment help your dog learn to walk politely by your side.
